Membership Information

The Texas Green Network is the first Green Chamber-of-Commerce in Texas, a community of businesses, organizations and individuals committed to accelerating the adoption of sustainable best practices in the way we do business. Seeking to influence many aspects of the environmental impact of business, TGN provides a broad forum for networking, promotion and collaboration, including our monthly meetings, website and online member directory, newsletter, forums and other developing channels.

Membership in the Texas Green Network is about leadership in the business community and being a part of an emerging business culture in America. It is about making a statement that sustainable business practices are a must, essential to the future of our community and planet.

By coming together as a business network, we unify and strengthen our impact and strengthen our ability to impact the business community, both as individuals and as an organization.

Please join us. Our dues are minimal, ranging between \$75-375 per year, a sliding-scale, based on the size of your organization.

We know that the above statements are important to our future but we also know that you, as a business person, need something tangible in return for your investment in the cause. The Texas Green Network endeavors to provide an ever-growing set of value propositions that currently include:

- Listing in our Online Member Directory
- Extensive Networking Opportunities with Like-minded Businesses and People
- Leadership in an Important Emerging Business Movement
- Meeting/Trade Show Table and Newsletter Story Opportunities
- Vertical Market & Issue Related Forums to Deepen our Involvement and Reach
- Mutual Web Linking with the Texas Green Network

Our membership committee is intended to provide an objective eye on prospective members of the Texas Green Network and is there to help us avoid the pitfalls of green washing and misuse of the network. But TGN is intended to be an inclusive organization with a goal of spreading sustainable practices. It is not there only for the people approaching "the finish line". And where the business community is concerned, the finish line will be an ever-moving target.

The Texas Green Network in no way warrants the claims of our members and takes no responsibility for their actions but does reserve the right to revoke memberships with a full refund of dues for that year, if an objective TGN panel finds their practices to be contrary to a sustainable future.

Please find ways to reward our membership for their efforts and participation. Do business with them if you can. We are sure you will find them returning with the same passion for our common cause and for your business. Participation in this network is not a badge. It is all about what we do with the network for our future.

There are several ways to become a member of the Texas Green Network. This flyer is usually accompanied by a membership form. Or you can visit www.TexasGreenNetwork.org/Membership.html to join online.

We look forward to meeting you, learning about your business and having you join our growing community.
